

Volunteer Board Recruitment

Since 1994, the Sheep River Health Trust has worked to "raise funds to enhance and support community health services in areas not provide for by government funding" (Mission Statement).

The Trust, at the time of its conception, focused on the Oilfields General Hospital and surrounding communities. With the opening of the Okotoks Health and Wellness Centre, its service area expanded to include the northeast regions of the Foothills MD. Individual donations, community and corporate partners have supported this Trust through its Annual Appeals, Points of Light Campaign, Golf 4 Wellness Tournament/Auction, and Memorial Donations to fund equipment, community health care programs and services.

The volunteer Board of Trustee position requires a minimum commitment of attending monthly meetings (two hour duration usually scheduled for 4 pm on a Wednesday or Thursday of the last week of the month) coupled with the ability & enthusiasm to volunteer and support the our fundraising projects. We are particularly interested in individuals with skills and experience in the fields of Healthcare, Planned Giving, Law, Accounting, Board Development and Special Events Planning to respond.

Please feel free to suggest that any individual you are approaching may contact me for further information at:
