

Glowing Past - Bright Future

Town of Turner Valley
Utility Rate Change Effective
September 1, 2010

In keeping with the Town of Turner Valley's water conservation measures to move water and sewer utility rates towards a consumption-based user pay system, Council has approved the following:

- As of September 1, 2010 the rates will be based on 100% consumption for all residential and commercial customers.
- A rate structure will be implemented for residential and commercial water customers, whereby residents using less than average amounts of water will pay less and those with higher than average water use will pay a premium.
- Sewer rates remain the same based on consumption.
- Garbage rates increase \$2/billing cycle.
- Recycling rates are not increasing and remain the same.
